EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Luke Kilyk on 6/18/04.

The application has been amended as follows:

In claim 3, line 1, delete "completion" and insert therefor --drilling--.

2. The following is an examiner's statement of reasons for allowance: Applicants amendment distinguishes over Rines which teaches an invert emulsion, instead of the oil-in-water emulsion of claim1. Hale (5358049) teaches an oil-in-water emulsion which can comprise formate or acetate salts therein, however Hale fails to teach the use of an emulsifier in the formation of the drilling fluid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
